Summary

I have recently finished my Degree with a major in Computer Science and a minor in Mathematics. I am a passionate programmer who enjoys solving problems and over-coming challenges. I am always keen to learn more and am very passionate about a career in software development. My hobbies include badminton, biking, guitar and programming.

Current Projects

Portfolio Website

July 2023 - Present

2024 - Present

Have created a portfolio website to showcase my recent projects and achievements. This shows my ability to design and optimise user experience.

Schedule planning application

Sep 2023 - Present

Creating a mobile application that makes it easy to set and view goals. Manage a calendar and set tick of daily task. I am learning how to use UML and to deploy applications on the play store.

Multiplayer tower defense game

Dec 2023 - Present

Am creating a game where each player's goal is defend their own base while attacking their opponents.

- Learning how to implement networking learnt from Uni papers
- Constantly overcoming problems and challenges
- Implementing software design patterns

Work Experience

Engineering project Fonterra

Dec 2021 - Feb 2023

- Conducted safety inspections of 160 ladders and updated safety documentation.
- Put information in tidy tables and graphs in Microsoft Excel
- Performed research on ladder safety standards and best practices.
- Inspected and documented asbestos containment on site.
- Compiled and organized data into spreadsheets for reporting and compliance.

Data Entry

Nov 2022 - February 2023

- Transcribed hand-written materials into digital documents.
- Converted data from paper to digital spreadsheets.
- Summarized information quickly and accurately.
- Scanned documents and managed various office tasks.
- Gained efficiency in typing accurately.

Domino's delivery driver and in store

Aug 2021 - Feb 2022

- Prepared pizzas and handled checkout operations.
- Time management skills to deliver pizzas in time.
- Developed strong customer service and teamwork skills
- Maintained cleanliness and hygiene standards.

Achievements

- Trinity Rock and Pop Grade 6, 7 and 8 playing the Electric guitar
- Won South Island under 19 team even 2019
- Have competed for Southland and Otago at Nationals for Badminton

Education

Bachelor of Science

Feb 2021 - Dec 2024

University of Canterbury

Major in Computer Science, Minor in Mathematics.

Skills

General Skills

- Financial Analysis
- Data Analytics
- Microsoft tools
- Debugging
- Fast touch typing
- Human computer Interaction

Software Development

- Scrum
- Agile methodologies
- Github version control
- Test Driven Development

Data

- Panda
- Big data cleaning
- Dask
- scikit-learn
- NumPy
- ML ops

Programming Languages

- Python3
- HTML
- CSS
- C++
- Javascript
- Java

Strengths

Time Management

Throughout study in University have had to meet project deadlines. I have gained experience at setting checkpoints, prioritizing task and planning timetables to ensure I get all work completed on time.

Problem Solving

Both math, computer science and software papers have built up my problem solving skills. Programming website also improved them as constantly overcoming small challenges.

Team Collaboration

Throughout study in University have had to meet project deadlines. I have gained experience at setting checkpoints, prioritizing task and planning timetables to ensure I get all work completed on time.
